Outdoor Cat Issues

Derry Township promotes the humane reduction of the outdoor cat population through a program of Trap, Neuter, Vaccinate, and Return (TNR). Outdoor cats are trapped, spayed or neutered, vaccinated for rabies and distemper, and returned to their original location. Derry Township Community Cats, an all-volunteer organization, available to help with this process. You can help reduce the population of unwanted outdoor cats by taking advantage of our services - available to Derry Township residents AT NO CHARGE. Services include:

- Training and assistance with trapping cats
- Full spay and neuter services
- Vaccinations (rabies and distemper) and any medical treatment needed for cats who have been trapped
- Post-surgical care for cats
- Return of outdoor cats to their colony
- Owned, indoor cats are also serviced under the program

Simply call (717) 592-8087 and leave a message. One of our volunteers will return your call.

Lost/Stray Cats

Derry Township Community Cats does not re-home or rescue lost or stray cats, but will provide assistance in locating the owner. We will post pictures and contact information on our Facebook page. Send a digital picture and details (location found, area lost in, date of disappearance, etc.) to **derrycatsinfo@gmail.com**, and we will post a notice for you.

Send the same information to The Hummelstown Sun (message their Facebook page, or call them at **(717) 566-3251**) and they will post a Bow-Wow Bolo for lost or found pets.

If the cat you're concerned about is friendly and can be handled, consider taking it in a carrier to a local veterinarian, the Derry Township Police Department, or The Hummelstown Sun to scan for a possible microchip, which could help find the cat's owner.
