

Dear Resident,

On February 13, 2019 from 6 pm to 9 pm we are hosting an open house at the Derry Township Municipal Building at 600 Clearwater Rd, Hershey, PA 17033. The open house is to update the community on our revised plan to rebuild the PPL 69 kV transmission line in Derry Township.

The project initially included rebuilding the existing transmission line above ground in the current location and right of way. However, we identified construction concerns further into our current plans. As a result, we stopped construction and reviewed the entire project to address construction and long-term maintenance challenges. We ultimately decided that re-routing the transmission lines and placing them underground is the best option.

The open house is an opportunity to get more information about the project and have any of your questions answered. The open house will be setup in a station format, so each resident has an opportunity to have one-on-one conversations with PPL representatives. Because of the format, we ask that you please attend during the designated time slot listed below. You may arrive at any time within your listed period. Please note there will be no group presentation.

Elm Ave, Cherry Dr, Almond Dr, Beech Ave, Cocoa Ave and W. Governor Rd	6:00 to 7:00 PM
Java Ave, Fishburn Rd and Homestead Rd	7:00 to 8:00 PM
Forest Ave, Leearden Rd, Sand Hill Rd, Bromley Ct, S. Hills Dr, Sterling Ct, Apple Ln and Peach Ave	8:00 to 9:00 PM

If your street is not listed above or you are unable to attend during the times shown above, please feel free to attend either of the other time slots.

We appreciate your understanding and patience as we work through the complexities of this project.

Sincerely,

A handwritten signature in black ink that reads "David Gladey". The signature is written in a cursive, flowing style.

David Gladey
