

Guide to Swim Lessons

Parents:

Please remember that each child will learn at their individual pace. Swimming is a fun lifelong skill, and we want lessons to be a *POSITIVE* experience for everyone. To provide a safe and positive lesson environment, the aquatic staff asks that you review the following items.

** If you are a **DTCC Member**, you may stay and enjoy the facility, please make sure to swipe your membership card at the front desk at the beginning of your lesson.

** If you are a **Non-Member** you need to sign in at the front desk and receive a wristband and may **not** swim on your own before/after lessons unless you have paid the daily fee

How to Prepare for Swim Lessons:

1. Come dressed in a bathing suit or wetsuit.
2. If your child has long hair please tie back, braid, or have them wear a swim cap.
3. Please use the restroom before entering the pool.
4. Arrive on the pool deck 5 minutes before the scheduled class time.
5. If you are afraid of a skill, say so, we will help you overcome fears.
6. If your child has any illness or behavior concerns, please let your instructor know.

What to do During Swim Lessons:

1. Stay with your class – do not leave the pool area.
2. Please obey all pool rules, they are implemented for your safety.
3. Please, under no circumstance bring your child to class when they are sick.
4. Please hold questions until after the class is over.
5. We ask parents to stay in the designated lesson spectator area during the swim lesson.
6. If you must cancel a private lesson, please notify the instructor 24hrs in advance.

REMEMBER,
wait for your instructor
before entering the water!
