

Group Exercise Class Descriptions

Agility & Balance

This class will challenge and improve your balance and make you more agile. You will learn exercises that will move your joints in different patterns. You'll come away stronger and more mobile.

Barre

Barre class, with or without the barre, combines elements of yoga, Pilates, ballet barre and orthopedic exercises in a total body, low-impact workout. You will use small hand weights and resistance bands and incorporate bursts of high-intensity exercise to elevate the heart rate and increase metabolism. This class will emphasize developing core strength and balance for overall conditioning and toning.

Bootcamp

Bootcamp class involves rounds of strength-building circuits, with some cardio before and after each round. Class starts with a warm-up and ends with a relaxing cool-down.

Cardio & Core

One of the best ways to look and feel good is to get a great cardio workout followed by some toning for the abs and back. Lean out, lighten that midsection, and do your body a world of good!

Chisel

This 45-minute workout pairs lifting heavy weight and overload with slow and low reps. You'll challenge the muscles on a different level to build, define and strengthen. Great for all fitness levels as you'll pick your weights and work at your own level!

Core & More Yoga

Walk taller, feel stronger and enjoy the beats! Focus on core strength, muscle balance, and a full body stretch to decrease muscle tension and gain flexibility. Great for all ages, athletes and anyone looking to enhance their game!

Cycle Sculpt

This hybrid fitness class begins with a music-driven, high-energy ride that is choreographed to the beat of the music. This is a class with varying levels of intensity to help increase your heart rate and boost your endurance. After 20-25 min. on the bike, the class transitions into the Small Studio for a variety of low-impact sculpting movements utilizing bodyweight exercises, resistance bands, and light weights.

Cycling

Indoor cycling or "spinning" provides a high-energy workout that burns calories and improves endurance and strength. During a typical class, various types of terrain—such as hills that you have to climb—are simulated to increase the intensity of the workout. BPM Cycling uses a rhythmic approach to spinning that follows the beat of the music.

Full Body Strength

With bodyweight exercises and the use of various strength training equipment such as dumbbells, bars, exertubes, etc.), Full Body Strength will work your entire body from head to toe. Class will include a 5-min. warm-up and 5-min. final stretch.

Group Exercise Class Descriptions

HEAT (High Energy Athletic Training)

This class provides 20 stations with weight training and cardio performed for 1 minute followed by 15 seconds of transition time. This class uses a variety of equipment and bodyweight exercises.

LaBlast®

LaBlast® is a dance fitness program based on all the ballroom dances you see on Dancing with the Stars which was created by Emmy-nominated choreographer & Dancing With The Stars pro, Louis van Amstel. It is partner-free, includes all components of fitness, and uses music from every era & genre.

Level 1 Cycling

This cycling class will get your heart pumping but is geared for an easier, less strenuous workout than a traditional Cycling class. You'll have fun while boosting your cardiovascular endurance. Level 1 Cycling is great for beginners, seniors, or anyone looking for a lower intensity, but still effective, class.

Level 1 Strength

Based on a philosophy of functional fitness, this class is designed to build strength, improve balance, and increase flexibility. Full body and isolation movements will be incorporated using a variety of fitness tools such as resistance bands, dumbbells, balls and more. Great for beginners, seniors, or anyone looking for a strength class in which you can work at your own level.

Mindful Movement

A 1-hour class designed to promote joint mobility and inner calm. With a guided meditative approach, movements are joined with the breath at a mild pace to encourage focus and centeredness. Hatha yoga poses are included for a blend of strengthening and releasing muscle tension. Breathing techniques and a final relaxation rounds out the hour.

POUND®

Instead of listening to music, you become the music in this exhilarating full-body workout that combines cardio, conditioning, and strength training with yoga and Pilates-inspired movements. Using Ripstix®, lightly weighted drumsticks engineered specifically for exercising, POUND® transforms drumming into an incredibly effective way of working out. Designed for all fitness levels, POUND® provides the perfect atmosphere for letting loose, getting energized, toning up and rockin' out! The workout is easily modifiable, and the alternative vibe and welcoming philosophy appeal to rockstars of all ages and abilities.

Resiliency & Mobility

Enjoy active stretching and passive rest postures to improve mobility and function, especially getting down and up from the floor. Be prepared to take your shoes off, or wear flexible footwear. Bring a pillow bolster or a blanket to help provide support in challenging postures. *This is not a yoga class.*

SilverSneakers® Circuit

SilverSneakers® Circuit incorporates upper body strength work alternated with low-impact cardio using a chair for standing support. This class is great for seniors, individuals with special medical conditions, or anyone looking for a lower intensity class that still provides an invigorating, overall workout.

Group Exercise Class Descriptions

Strength & Tone

Strength & Tone aims to improve daily living skills through better strength, agility, balance, and flexibility. The class promotes progressive resistance where your training load is increased as your muscles become stronger. Core work will be incorporated and is designed to build core and back muscle groups that will improve your posture and increase your flexibility while exercising. Instructor will use a variety of equipment in this class.

Tabata / Tabata & Core

4-5 Tabata (high-intensity 4-minute intervals) segments that are timed followed by timed rest segments. Tabata & Core also includes bodyweight core exercises. These classes will challenge your strength and stamina during the workout. It's a great way to obtain both cardio and strength work in one class.

Vinyasa Yoga

Vinyasa Flow is slow to medium-paced yoga. It is a mix of stretching, strength and balance. It is designed to sync movement with pranayama (breath) to increase mental clarity in addition to physical stamina. Modifications will be offered for poses to suit participants of all levels.

Yoga Flow

A 1-hour all-level Hatha/Vinyasa style yoga class. Modifications are suggested as well as opportunities to advance the yoga practice and poses. This class is a mixture of strengthening, flexibility and balance to enhance mobility and wellbeing. Breathing techniques, centering and relaxation make the hour complete.

Zumba®

Everybody and EVERY body! Zumba is an exercise class that feels more like a party! Low-intensity and high-intensity moves are combined for an interval-style, calorie-burning dance fitness party. Zumba is a total workout that combines all elements of fitness – cardio, muscle conditioning, balance, and flexibility while boosting your energy with a serious dose of awesome with each class. Bring your energy and your smile.

Zumba Gold®

Zumba Gold modifies traditional Zumba moves with lower intensity, lower impact moves, and smooth transitions. It utilizes an engaging blend of Latin and international-style music along with some catchy pop. Class will focus on cardiovascular conditioning, balance, range of motion, and coordination. Zumba Gold is great for the beginner exerciser, active older adult, or anyone who prefers not to go “full-out” for whatever reason.
